

First Things First:

Discovering Your Karma Mission and Purpose in Life

The last astrology book you'll ever need, and the only one you will literally use to your advantage!

First Thing First: Discovering Your Karma Mission and Purpose in Life is a personal and individual step-by-step guide, tailored to you-helping you find your very own unique sun + moon + rising sign, and how (together) each plays a part in your astrological personology and naturalness: your "firstness" (as per the approximate time, and month and day you were born).

- Are you of Masculine or Feminine plight?
- What Elemental Aura do you give off: Water/fluid? Earth/solid? Air/flythy? Fire/fiery?
- Are you of Dynamic or Strategic energy?
- Are you of "Positive" or "Negative" quality?
- Is your disposition Odd? Abstract? Extroverted?
- Is it: Even? Concrete? Introverted?
- Are you instinctively a Subjective Feeler or an Objective Thinker?

Find out if (together) your sun + moon + rising sign are harmonious or disharmonious, in conjunction, or in a position of: growth, flow, tension, opportunity, confusion or opposition and what that means to you.

Found within this book, you will learn the true meaning of what a "follower" is: merely a misguided person who has not found his or her own way. However, spiritually speaking (per karma mission and purpose in life) everyone is here to: Lead (and be cardinal in spirit), Organize (and be "fixers") or Communicate (and be mutable)-there is no such spirit as a "follower" in the universal spiritual realm under which we reside.

So follow this guide-tailored just for you! Discover what your very own karma mission and purpose in life is, and whether or not you are Leading, Organizing, or Communicating via your ego (sun sign), id (moon sign) or your spirit (ascendant/rising sign)...

Either way, we all are living by way of one of three things:

- Free Will
- Default
- Destiny

...So whether your philosophy on matters involving the self and purpose in life are intuitive or scientific; *First Thing First: Discovering Your Karma Mission and Purpose in Life* is for, and about-but ultimately, up to you.

Angela Sherice has studied the ancient art, and intuitive science of astrology for many years. By way of the beginning of the book of Genesis, basic math, an encyclopedia, a dictionary, a thesaurus, and incorporating a little bit of: astronomy, psychology, philosophy, chemistry and physics; she wrote *First Thing First: Discovering Your Karma Mission and Purpose in Life*-an out of the box, new thought approach to traditional astrology, and an interpretation unheard of, above all other astrology books ever written.

Intent on providing lovers of [and those simply interested in astrology]; practicality and personal usefulness of it (rather than the typical approach: elaborating on zodiac sign characteristics and relationship compatibility) her simple and underlying methodology of using numbers, order, continuity and balance, is such that even the biggest skeptic could not deny its logic.

Sherice's relationship with astrology helped her understand her very own "firstness" and who she was innately (as per her approximate time, month, and day that she was born), in contrast to her "learnedness" (environment, social, situational factors etc.).

With that, by way of a conscious decision to return, respect and "re" learn her (innate) firstness-it was during-that she discovered that it was her own karma mission and purpose in life to "Communicate" (which is what she loves and does through writing).

By tapping into that power within, that epiphany was such that she felt it was her spiritual duty to communicate the same methodology with the world-with pleasure, and the intent of enlightening, empowering, encouraging, motivating and inspiring others to discover the same for themselves.
